Derived Output Formats

The following table shows the available derived formats.

Notes:

- You can generate the following derived outputs in Product Structure Editor. To enable the generation of these derived outputs, your Business Administrator has to define the required derived format rules in the Derived Format Management parametrization console of the Collaborative Spaces Configuration Center widget. For more information, see *Product Structure Editor User's Guide: Generating Derived Outputs*.
- You cannot generate derived outputs for PartSupply components.

Format	Source	CAD Origin
ExactGeometry	SLDPRT, 3DPART	SOLIDWORKS, 3DEXPERIENCE
STEP	3DPART	3DEXPERIENCE
PDF	3DEXP CATDrawing, SLDPRT, 3DPART (2D Layout)	3DEXPERIENCE, SOLIDWORKS
STEP_AP214	SLDPRT	SOLIDWORKS
STEP_AP203	SLDPRT	SOLIDWORKS
ACIS	3DPART, CATPART, SLDPRT	3DEXPERIENCE, CATIA V5, SOLIDWORKS
